DA ASSIGNMENT -2

- I downloaded the given dataset from kaggle and removed the unnecessary columns , splited the dates column such as date of birth ,data of hiring and date of termination into year ,date ,month and day of the year columns and uploaded the data set on the IBM Cognos account with the name HRD datamodule.
- After which I started off to create the dashboard and included all the possible visualizations along with the necessary data required.
- Followed by creation of report and the story.
